

Your Partner in Student Health and Well-being

School Clinics

Our team of highly skilled and dedicated nurses and doctors provide round the clock clinical care , wellness and counseling services for adolescents in secondary school clinics.

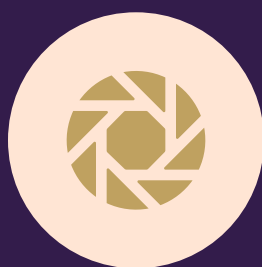

Pre-admission School Health Screening Services

We don't just screen to diagnose but we screen to detect how best students can safely navigate the rigors of school despite their health status.

School Vaccination Services

We have the largest school-based HPV vaccination services in the private sector in Nigeria. We provide other vaccination services such as Hepatitis B, Typhoid, Varicella, Meningococcal, Pneumococcal, etc.

Integrated School Health Intervention

Health education talks, nutritional advice, deworming services, dental checks, eye checks, etc
