

We are the largest provider of private vaccination services in Nigeria

Making vaccination work for you, one person at a time

BOOK YOUR VACCINATION TODAY!

National impact [Trailblazing protection from HPV vaccination]

As Nigeria's leader in school-based HPV vaccination, we launched the country's largest initiative in 2014 to protect young lives—raising awareness and providing vaccinations using a low-cost delivery model a full decade before the government's official roll-out. Our pioneering work laid a vital foundation, equipping communities and contributing critical expertise to drive a successful national program.

We provide comprehensive vaccination offerings, including HPV, Hepatitis B, Typhoid, Yellow Fever, and others. Our provisions are tailored to your needs. You can come to us or we can come to you.

We help assess your vaccination needs and advise on what you require based on your age group and risk category.

We provide customized vaccination plans for individuals, schools, workplaces, and communities to ensure widespread access to preventive care.
